## OFF TO THE RACES

Once an area rich in farming and agriculture, Northolt made a name for itself in the 1930s with its nationally renowned pony racing. Acclaimed British engineer Oscar Faber was chosen to design the modernist grandstands for Northolt Park Racecourse in 1927, following his work at Lord's Cricket Ground.

Faber Green sits just north of where the stands once stood and was created from a desire to honour his work and a commitment to preserve the abundance of green spaces in the area.

## BE PART OF NORTHOLT'S NEXT CHAPTER

Faber Green is the latest project in the ambitious renewal of the homes and neighbourhoods throughout the London Borough of Ealing. Northolt, West London is being supported by Network Homes' commitment to providing good homes for everyone. With a substantial amount invested on the rejuvenation of nearby Rectory Park and other local developments, these contemporary homes are part of Ealing's new era of good-quality and community-focused housing.

The site of these benefit through Network Homes' investment. This creates a special connection between your home and the wider Northolt community.

The wider community is also set to benefit from the creation of Middlesex Football's new home in Rectory Park, bringing with them superb all weather sports and community facilities, open to the public, offering fun events and football matches.

Now's the time to be part of Northolt's next chapter.

# HOW SHARED OWNERSHIP WORKS

The new homes at Faber Green are available to purchase on a Shared Ownership basis, offering a perfect opportunity for local people to get a step on the property ladder.

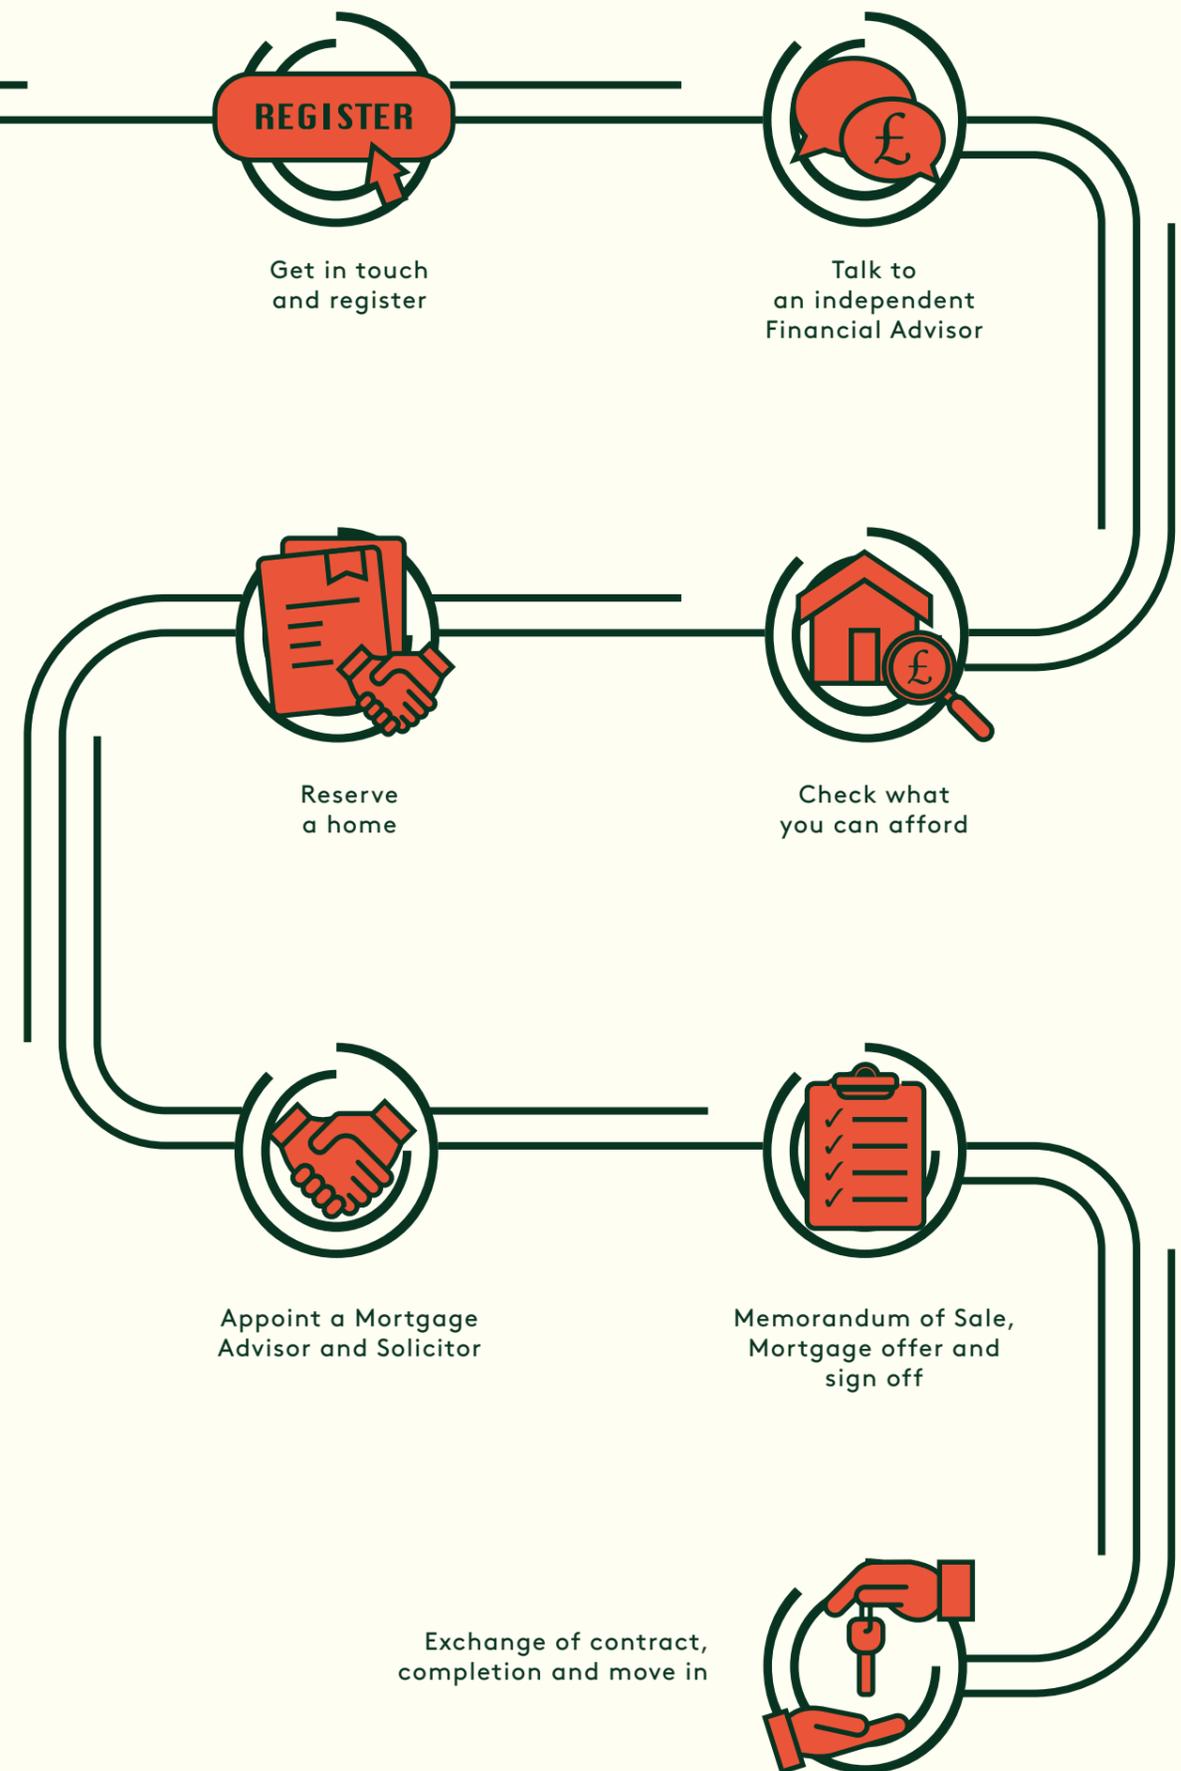

The Shared Ownership scheme aims to help those who might not otherwise be able to buy a home of their own.

At Faber Green, Shared Ownership gives you the opportunity to buy a share of your new home, starting at 25% or more if you can afford it. The rest is owned by Network Homes and you pay a subsidised rent on this portion in addition to your own mortgage. You will also need to have savings to cover any deposit required by your mortgage lender and the costs involved in moving.

Following the initial purchase, you have the option of increasing your share when you can afford to do so. This is called staircasing which means you could eventually own all of the property. The more you own, the less rent you pay.

There will also be a service charge payable to cover the cost of the communal maintenance and this includes the buildings insurance.

Shared Ownership is subject to availability and qualifying criteria. Priority will be given to people living or working in the London Borough of Ealing. Every application is assessed individually.
